New: Try out the discovery tool, OpenGeoSci

With 2014 MSA membership, online *American Mineralogist* is included. To see the full text or PDF versions be sure to log in via the portal page with your MSA id and password: [portal page](#) – to join MSA click here: <https://msa.minsocam.org/orders.html> (you can order a print subscription additionally).

The mission of *American Mineralogist: An International Journal of Earth and Planetary Materials*, the official publication of the Mineralogical Society of America (and in our 99th year of publication in 2014), is to publish the results of original scientific research in the general fields of mineralogy, crystallography, geochemistry, and petrology and all sub-categories. The full Scope and Mission of the Journal can be found [here](#). **Impact Factor 2012: 2.204. Submission to publication time averages less than 10 months.** For faster, try Letters – short communication of significant results. For info about submissions [click here](#) or the links on the right. For MinPub Shop see <http://www.minpubs.org/>. For site features, [check out this!](#)

IN THIS ISSUE

- Izatulina et al.: Weddellite crystal structure refinement
- Markl et al.: Ca-Mg-Co arsenates
- Bonazzi et al.: Two new epidote-tornebohmite polysomes
- Ma et al.: Monipite, a new phosphide mineral
