

Table 7

Observed and calculated structure factors for PbF(L) I2/c

Table with columns for h, k, l, 10Fo, 10Fc, 10s, repeated four times. It lists observed and calculated structure factors for PbF(L) I2/c, including values for 10Fo, 10Fc, and 10s.

Table with 30 columns: h, k, l, 10Fo, 10Fc, 10s (repeated 5 times). Each row represents a set of structure factor data for a specific (h, k, l) reflection.
