

INDEX TO VOLUME 15

PREPARED BY L. S. RAMSDELL

Leading articles are in **bold face type**; notes, abstracts and cross references are in ordinary type. Only minerals for which definite data are given are indexed. Titles of abstracted articles are not repeated when cross-indexed under author's names.

Abell, R. W. New Research binocular microscope.....	163	Barnes, V. E. Changes in hornblende at about 800°C.....	393
Adam, R.....	242	Barringer Hill district of Texas, report on. (Brown).....	122
Adirondack feldspars, mineralogy of. (Barth).....	129	Barth, T. F. W. Mineralogy of Adirondack feldspars.....	129
Adularia (crystallographic data) ..	287	Barylite, Franklin, N.J. (analysis and optical data).....	32
Allen, E. T. and Wright, F. E. Curtisite, a new organic mineral from Calif.....	169	Barysilite (analysis and optical data).....	341
Allen, V. T. Petrography of the weathered zones of glacial deposits.....	118	Barytes, British. (Sweet).....	454
Alling, H. L. Feldspars in Adirondack anorthosite.....	267	Bauer, L. H. Minerals of Franklin, N. J.....	198
Aluminum silicate minerals, tabulation of. (Wherry).....	119	—— and Berman, H. Notes on some Franklin minerals ..	122, 340
Ameletite. (Marshall).....	202	—— and Palache, C. Beryllium in Zinc deposits of Franklin, N. J.....	30, 121
Amphibole, blue-green, from metamorphic iron formation of Mesabi Range. (Richarz).....	65, 122	Berman, H. and Bauer, L. H. Notes on some Franklin minerals.....	122, 340
Amphibole, zinc-bearing. (analysis and optical data).....	340	——, Foshag, W. F. and Duggett, R. A. Scorodite from Gold Hill, Utah.....	390
Andreatta, C.....	538	—— and Gonyer, F. A. Pegmatite minerals of Poland, Maine	375
Anning, N. Book review.....	201	Beryl (crystallographic data).....	294
Anorganische und organische Entfärbungsmittel. (Singer) [Book review].....	168	Beryl (etch figures).....	385
Anthophyllite asbestos, soda-rich, from Trinity Co., Calif. (Laudermilk, Woodford).....	259	Beryllium in Zn deposits of Franklin, N. J. (Palache, Bauer).....	30, 121
Apophyllite (analysis).....	340	Beryllium ores of New England. (Gedney).....	120
Arandsite. (Partridge).....	274	Beach sands from the Holsteinsborg District, Greenland. (Stewart).....	74
Arsenoferrite from Jachymov, Czechoslovakia. (Foshag, Short).....	428	Beach sand, mineral concentrates of. (Trainer).....	194
Arsenopyrite (crystallographic data).....	299	Bianchite. (Andreatta).....	538
Asbestos. (Gamble) [Book review]	167	Binocular microscope for research.	163
Bannister, F. A. "Thermokalite."	84		

Biographical notices of recently deceased mineralogists. (Spencer).....	454	Clay minerals, staining as an aid in the determination of. (Merwin).....	117
Biological application of petrographic methods. (Slawson) . . .	115	Clay symposium.....	117
Bismutotantalite. (Wayland, Spencer).....	201	Clinozoisite.....	343
Black sand from Nome Creek, Alaska. (Wilkerson).....	77	Cook, C. W. Book review.....	43
Bonshtedt, E. M.....	203	Crandallite.....	303
Boron deposits of western U. S., origin of. (Foshag).....	120	Crawford, W. P. New occurrence of rickardite.....	272
Bragg, W. Introduction to crystal analysis. [Book review].....	199	Crystallized minerals in a meteorite. (Hawkins).....	121
Bravoite.....	12	Curtisite, new organic mineral from Calif. (Wright, Allen).....	169
Brown, L. S. Occurrence and origin of Texas celestite.....	121	Datolite (crystallographic data) . .	345
——— New report on Barringer Hill district, Texas.....	122	Davidson, S. C., Palache, C. and Goranson, E. A. Hiddenite deposit in North Carolina.....	280
——— Book review.....	168	Decrepitating minerals, data concerning. (Miller, Getchell) . . .	116
Buerger, M. J. Translation-gliding in crystals.....	45	Dehrnite.....	303
——— Translation-gliding in crystals of the NaCl type.....	174, 226	Dehrnite (analysis and optical data).....	324
——— and Harrington, V. F. Broad source of monochromatic light.....	579	Deltaite, a new mineral (analysis and optical data).....	321
Calcite-rhodochrosite series, x-ray study of. (Krieger).....	23	Dennisonite, a new mineral (analysis and optical data).....	322
Cape Spencer flow, differentiation of. (Lund).....	539	Diamond—a descriptive treatise. (Sutton) [Book review].....	42
Cassiterite, pleochroic.....	385	Dickinsonite (analysis and optical data).....	380
Celestite in Texas, occurrence and origin of. (Brown).....	121	Dickite, a kaolin mineral. (Ross, Kerr).....	34
Celestite.....	343	Differentiation of the Cape Spencer flow. (Lund).....	539
Cenosite from Ontario. (Graham, Ellsworth).....	205	Discredited and doubtful ore minerals. (Short).....	120
Chamot, E. M. and Mason, C. W. Handbook of chemical microscopy. [Book review].....	498	Discredited species.....	84
Chemical Microscopy, Handbook of. (Chamot, Mason) [Book review].....	498	Distribution of crystals among symmetry classes. (Rogers) . . .	120
China clay deposits, Cornwall, England. (Van Horn).....	118	Doggett, R. A., Foshag, W. F. and Berman, H. Scorodite from Gold Hill, Utah.....	390
Chlorophoenicite.....	343	Double variation method of mineral determination. (Emmons). . .	118
Clay minerals, our present knowledge of. (Ross, Kerr).....	117	Dumortierite from Imperial County, Calif. (Wolff).....	188
		Dumortierite in Riverside County, Calif. (MacMurphy). . .	79

Eggonite. (Krenner).....	83	—, Berman, H. and Doggett, R. A. Scorodite from Gold Hill, Toole Co., Utah.....	390
Elbrussite (Mickey).....	537	— and Short, M. N. Arseno- ferrite from Jachymov, Czechoslovakia.....	428
Elements of Mineralogy. Part III. Determinative tables. (Win- chell) [Book review.].....	166	Franklin, N. Jersey, minerals. (Bauer).....	198
Ellsworth, H. V. Four stages in the alteration of the Villeneuve uraninite.....	455	Franklin minerals, notes on. (Bauer, Berman).....	122, 340
— and Graham, R. P. D. Cenosite from Ontario.....	205	Fraser, H. J. Paragenesis of Newry pegmatite, Maine.....	349
Emmons, R. C. Double variation method of mineral determina- tion.....	118	Frebald, G.....	84
— On gravity separation.....	536	Fry, W. H. and Hendricks, S. B. Examination of soil colloids...	117
Englishite, a new mineral. (analy- sis and optical data).....	328	Fülöppite. (deFinály, Koch).....	201
Face and zone symbols referred to hexagonal axes (Hey).....	454	Gallium, occurrence in Zn min- erals. (Papish, Stilson).....	521
Fairfieldite (analysis and optical data).....	381	Gamble, W. B. Asbestos. A list of references. [Review].....	167
Fauserite, identical with pink epsomite. (Hey).....	454	Gedney, E. K. Beryllium ores in New England.....	120
Fedorow universal stage for deter- mination of optical properties of minerals. (Wolff).....	119	— Mineralogy of New Eng- land pegmatites.....	120
Feldspars, Adirondack, mineral- ogy of. (Barth).....	129	Geijer, P.....	202
Feldspars in Adirondack anortho- site. (Alling).....	267	Geological Nomenclator. (Rutten) [Book review].....	200
Ferroschallerite (analysis).....	345	Getchell, B. C. and Miller, C. E. Data on decrepitating min- erals.....	116
Finály, I. de and Koch, S.....	201	Gillson, J. L. Genesis of the Peek- skill emery deposits.....	121
Fischer, W.....	203	Gonyer, F. A. and Berman, H. Pegmatite minerals of Poland, Maine.....	375
Fisher, D. J. Huebernite from Kendall, Montana.....	104, 116	— and Palache, C. Lazulite from Chittenden, Vermont...	338
Fisk, H. G. Preparation and puri- fication of tri-iodides of Sb and As for immersion media.....	263	— New iron meteo- rite from Carbo, Mexico.....	388
Fizelyite. (Krenner, Loczka).....	83	Goranson, E. A., Palache, C. and Davidson, S. C. Hiddenite deposit in N. Carolina.....	280
Flints and jaspers found in Dis- trict of Columbia. (Palmer)...	119	Gordonite, a new mineral. (optical and crystallographic data and analysis).....	331
Fluorescence of tungsten miner- als. (Van Horn).....	461	Graham, R. P. D. and Ellsworth, H. V. Cenosite from Ontario..	205
Foshag, W. F. Mineralogy of an- cient and modern saline lakes.	165		
— Nature of pyromelane.....	204		
— Origin of boron deposits of western U. S.....	120		

- Gravity separation. (Emmons) 536
