

NOTICES

AMERICAN CRYSTALLOGRAPHIC ASSOCIATION SUMMER MEETING

The 1967 summer meeting of the ACA will be held the week of August 20-25 on the campus of University of Minnesota. Dr. Kenneth Jackson of the Bell Telephone Laboratories has organized a symposium on the topic of *Crystal Growth*. E. Bauer: *Vapor Growth*; P. H. Geil: *Crystal Growth in Polymers*; K. A. Jackson: *Crystal Growth Morphology*; R. A. Laaise: *Techniques of Crystal Growth*; W. W. Mullins: *Morphological Stability*; D. R. Uhlmann: *Crystal Growth Kinetics*. The first A. O. Patterson Lecturer is Bertram Eugene Warren, Professor of Physics at M.I.T.

For further information address the Local Chairman, Prof. T. Zoltai, Department of Geology and Geophysics, University of Minnesota, Minneapolis, Minnesota 55455.

PITTSBURGH DIFFRACTION CONFERENCE

The Twenty-fifth Annual Pittsburgh Diffraction Conference will be held on November 1-3, 1967, at the Mellon Institute, Pittsburgh, Pennsylvania. Papers on any aspect of diffraction, microscopy, crystallography, crystal physics, or related instrumentation are invited. Abstracts of 400 words or less should be forwarded to the Program Chairman, Professor Bryan M. Craven, Crystallography Laboratory, University of Pittsburgh, Pittsburgh, Pa. 15213, before September 11, 1967.

A symposium on A QUARTER CENTURY OF DIFFRACTION will be included in the Conference.

Further information may be obtained from the Publicity Chairman, Dr. Sidney Diamond, U. S. Steel Corporation, Applied Research Laboratory, Monroeville, Pa. 15146.
