**m) Pagosa Peak Dacite**

**n) Fish Canyon Tuff (outflow)**

![Graphs showing oxide composition vs. distance from starting point for Pagosa Peak Dacite and Fish Canyon Tuff (outflow).](image)

- **SiO₂**, **MgO**, **FeO<sub>tot</sub>**, **CaO**, **Al₂O₃**, **Na₂O+K₂O**, **TiO₂**, and **MnO** are plotted as a function of distance from the starting point (µm).
