Mineralogical Society of America

FROM THE PRESIDENT

The F. Donald Bloss Fund – A Gift to MSA

Member generosity is a hallmark of MSA. Whether volunteering time and energy to provide input to offices and committees or giving financially to the Society, MSA functions largely due to the generosity of its members. Each year over 130 members serve on various committees and appointed posts and, thus far in 2007, more than 23% contribute financially to sustain the Society and advance its mission.

Funds that provide for MSA’s programs and outreach, awards and medals, and day-to-day functions stem from both single large gifts (thanks to Colonel Washington A. Roebling and Edward H. Kraus) and member contributions (see list of 2007 contributors). Gifts to MSA from years past include stocks and bonds, various bequests, and gifts of copyrights (for a complete listing, historical perspective, and interesting reading see http://msa.minsocam.org/donations.html?p=gifts). Each gift allowed MSA to expand its impact and accomplish its goals. For example, the Jewel J. Glass estate in 1968 eventually funded, in part, the Mineralogy Petrology Research Grant Fund, which has continued to grow and prosper because of member donations.

Most recently Prof. F. Donald Bloss, an MSA member since 1950 and a Fellow since 1954, created the F. Donald Bloss Optical Crystallography Fund and gifted MSA all the royalties due to him from the sale of his classic and popular textbooks Optical Crystallography and Crystallography and Crystal Chemistry. The goal of this trust is “to promote optical and optical crystallographic studies and the use of applied crystal optics in the solution of problems through the support of research, lectures, short courses, or development of educational materials.” When the fund reaches $50,000, income from it can be used to attain this objective. MSA welcomes additional donations to this fund.

Securing the financial future of MSA is one of the largest challenges facing our Society. Several options for contributing to the Society are listed on our website (www.minsocam.org/donations). We are grateful to Prof. Bloss for his many financial contributions as well as his past service to MSA: as Councilor (1968–1970), President (1977), and Editor of American Mineralogist (1972–1975). We also thank all our contributors for giving to ensure MSA’s future.

Barb L. Dutrow
MSA President

IN MEMORIAM

HAROLD C. HELGESON (Senior Fellow – 1969)
PETER ALMENDINGER (Member – 1989)
KURT SERVOS (Senior Member – 1953)

SOCIETY NEWS

NOTES FROM CHANTILLY

• During its 2007 spring meeting, MSA Council voted to keep the 2007 professional member dues at $55 and student dues at $10. Member subscription rates to the paper copy of American Mineralogist, which include online access, will continue to be differentiated between domestic and foreign member rates to reflect actual costs of producing and mailing the paper journal; they include an increasing portion of first-copy costs as we shift some of that burden from institutional to individual subscribers. U.S. member subscriptions (paper and electronic) will be $60, and foreign member subscriptions will be $70. Member web-access-only subscription will be $30. A U.S. institutional subscription (paper and electronic) is $775, and a foreign institutional subscription $800. Included with an institutional subscription are all the current year issues of Reviews in Mineralogy & Geochemistry and Elements, as well as access to the electronic journal on the MSA website.

• Members who renew online before October 31, 2007 will receive a $5 discount from their dues; the discount reflects cost savings to MSA from members who renew online early. MSA 2007 membership renewals will start in October, and renewal notices will be sent electronically. This will be followed by electronic reminders, and a reminder will be mailed to those who do not renew online by the end of October.

• Members and Fellows in the senior, honorary, and life categories are also sent renewal notices. Although they do not pay dues, they are sent notices because this is the best way to obtain an update of membership information, particularly mail and e-mail addresses.

• If you subscribe to other journals through MSA—Journal of Petrology, Physics and Chemistry of Minerals, Mineralogical Abstracts, Mineralogical Record, and Rocks & Minerals—please renew early. MSA needs to forward your renewal to those publishers before your subscription runs out.

SULFIDE MINERALOGY AND GEOCHEMISTRY

RECENTS IN MINERALOGY & GEOCHEMISTRY VOL. 61

Mineralogical Society of America and Geochemical Society

An up-to-date review with emphasis on crystal structure and classification, electrical and magnetic properties, spectroscopic studies, chemical bonding, high- and low-temperature phase relations, thermochemistry, and stable isotope systematics of metal sulfides. Where appropriate for comparison, there are brief discussions of the selenide or telluride analogs of the metal sulfides and sulfosalt minerals. There are major sections on sulfide mineral surface chemistry and reactivity, formation and transformation of metal-sulfur clusters and nanoparticles, modeling of hydrothermal precipitation, and sulfides in biosystems. Volume 61, 2006, David J. Vaughan, (ed) i-xiii and 714 pp. ISBN 093995073-1. US$40

For more description and table of contents of this book, and online ordering visit www.minsocam.org or contact Mineralogical Society of America, 3635 Concorde Pkwy Ste 500, Chantilly VA 20151-1125 • USA Tel.: +1 (703) 652-9950, Fax: +1 (703) 652-9951 E-mail: business@minsocam.org

CONTRIBUTORS and BENEFICIARIES

Many members contribute to MSA each year by including a contribution with their dues. Depending on the wishes of the member, the monies deposited are the principal funds of the Mineralogical Record Fund, the MSA Mineralogy/Petrology Fund, the MSA Outreach Fund, or the Edward H. Kraus Crystallographic Research Fund. The use of these four funds support MSA's research grants in crystallography, mineralogy, and petrology; the publishing of the American Mineralogist; the American Mineralogist Crystallographic Research Fund of the Society of America Mineralogist; the Distinctioned Public Service Award, the Dana Medal, the Roelings Award, and the lecturership program.

On May 28, 2007, a meeting of the American Mineralogists and organizations contributed $46,689 to MSA's Funds: Endowment ($31,347), Kraus ($2,076), Mineralogy/Petrology ($8,526), Outreach ($2,275), Bloss ($1,340), Edward H. Kraus ($2,076), and American Mineralogist ($100). If you have not yet done so, you may wish to consider a contribution to MSA's funds. MSA extends its gratitude to the following individuals and organizations:

- BENEFACTORS
  - Richard A. Beach
  - Daniel S. Barker
  - Don R. Baker
  - John C. Ayers
  - MSA MINERALOGY
  - David J. Zobkiw
  - Richard Wirth
  - Nicholas Charles
  - Richard J. Reeder
  - Edward A. Metz
  - James J. Luedtke
  - Friedrich Liebau
  - Tetsuo Kawakami
  - Ghaleb H. Jarrar
  - Hans J. Holland
  - Peter J. Heaney
  - Edward S. Grew
  - Juergen Glinnemann
  - Peter R. Buseck
  - EDWARD H. KRAUS
  - E. Bruce Watson
  - Mona-Liza C. Sirbescu
  - Darrell J. Henry
  - Wilhelm Heinrich
  - James J. Luedtke
  - (Bloss $1,340) Funds; Sustaining ($3,720), Kraus ($2,076), Mineralogy/Petrology ($5,826), Outreach ($2,275), Bloss ($1,340), Edward H. Kraus ($2,076), and American Mineralogist ($100). If you have not yet done so, you may wish to consider a contribution to MSA's funds. MSA extends its gratitude to the following individuals and organizations:
