

KDV 920 sample 200 bar

Gases plus selected solids

File: KDV 200 bar All shortlisted gas solid final.gem8

Output : Final Kdv 200 bar gas solid mole %.xl

Final Kdv 200 bar gas solid kmoles.xl

Species included

HSC-data will be extrapolated outside available temperature range.						
Extrapolation is usually OK, but may cause errors if values far beyond available range are used. Some of the species have materials temperature outside available temperature range. These species cannot be removed from calculation						
Remove the species outside of the interval Tmin .. Tmax	Species	Selected Range K		Available Range K		Reference
		T1	T2	T min	T max
