

Accessing the BU Guest Network

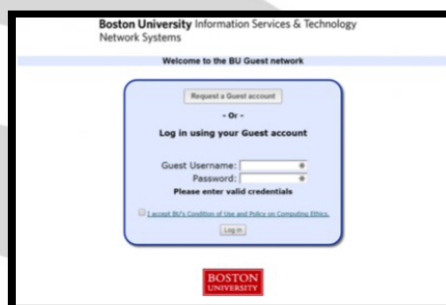

Join Network

Connect to the network called “**BU Guest (Unencrypted)**” from your list of available networks.

Register

- Once connected open up a browser and try navigating to a website. You should be redirected to <https://safeconnect.bu.edu:9443> for registration. If the page does not automatically redirect, please go to bu.edu to be brought to the login page.

- Enter the following credentials on the login page:
Username: **earth**
Password: **Pl@netary**

Connect

After accepting the conditions, you will then be able to connect to the Guest Network and enjoy wireless internet!
